## INDUSTRY DEEP DIVE: DENTISTRY

### SUNY Broome: Dental Hygiene: A.A.S.

- The mission of the Dental Hygiene program is designed to prepare graduates to take regional and national licensure examinations. The curriculum prepares students for practice in accordance with the New York State Dental Practice Act and to enter the profession as a competent entry-level dental hygienist.

### Binghamton University: Pre-Health/Pre-Med Undergraduate Program

- The Pre-Health Professions Advising Office was created to help students seeking entry into one of the doctoral level health professions, including Dentistry.
  - Binghamton's Early Assurance Program: developed to offer the opportunity for early acceptance to Buffalo School of Dental Medicine for academically strong undergraduate students focused on a career in dentistry. Application to the program is made at the end of the second year of undergraduate study.
